*'WE EAT FIRST WITH OUR EYES'*

GRAZING RUNNERS FOR ALL OCCASIONS

Make your Grazing Runner the centrepiece on your table. The Grazing Runner is all about encouraging your guests to feel at home as soon as they sit at the table. To enjoy the space and company around them, and to delve in and share the delights before them.

More chilled and less filling than a dinner buffet, less intrusive to conversations than serving canapés and a fabulous talking point for guests, the grazing table runner is a must for those weddings and special social gatherings with a little time to kill.

Bringing people together, creating conversations & delicious memories.

# GRAZE

IBIZA

The reason we use a per head price when catering for larger groups is to ensure there is enough food to not only keep your guests going throughout the event, but also to make sure the table itself looks beautiful and full of life and colour. Grazing tables are designed as just that 'grazing'. They will help keep your guests full throughout the night and accompany a light meal perfectly.
